

## ***Precinct Party Analysis Report***

The Party Analysis is a detailed set of individual and household counts of party identifications within precincts. Included in this analysis are counts of available telephone numbers and cumulative family counts by party mixture.

This analysis is organized by Legislative, Congressional and Senate districts or by County. Within the analysis each precinct shows Individual, Family and cumulative statistics. Sub-totals appear by city and/or ward.

For each precinct the following information appears in the associated columns:

<u>Name</u>	<u>Description</u>
Muni	Municipal Code for the City or Ward
Wd	Ward
Vote District	While many counties assign descriptive names to their precincts or voting districts, others designate them by numbers only.
LD	Legislative District assigned to the precinct.

### **Individual Statistics**

Total	Total number of registered voters in the precinct.
Tels	The total number of individual phone numbers for all registered voters.
Dems	The total number of individual Democrats.
Reps	The total number of individual Republicans.
Ind	The total number of all registered voters who are neither Democrats nor Republicans. These can include voters registered with minor parties as well as registered independents and those not declaring any specific party affiliation.

1-800-842-LIST(5478)**

Total	Total number of households for all registered voters. This is equivalent to the label count for all voters in the district.
Tels	Total number of households for which there are identified telephone numbers.
P-Dem	Pure Democratic Households. Total number of households that are purely Democratic, i.e. households that contain <u>only</u> Democrats and no others.
P-Rep	Pure Republican Households. Total number of households that are purely Republican, i.e. households that contain <u>only</u> Republicans and no others.
P-Ind	Pure Independent Households. Total number of households that contain <u>no</u> Democrats or Republicans.
DR	Democrat/Republican Household. These are households that contain at least one registered Democrat and one registered Republican but no independents
DI	Democrat/Independent Household. Households in which there is at least one registered Democrat and one independent but no Republicans
RI	Republican/Independent Household. Households in which there is at least one registered Republican independent but no Democrats

#### **Cumulative Families**

T-Dem	Total Democratic Households. This is a count of all households that have at least one registered Democratic voter.
T-Rep	Total Republican Households. This is a count of all households that have at least one registered Republican voter.
T-Ind	Total Independent Households. This is a count of all households that have at least one voter who is neither Republican nor Democrat.
